I agree with the views in paragraphs 14 to 16 above But the conclusion drawn in paragraph 17 does not follow from the premises contained in these earlier paragraphs It is said that not one of these items of work is such as would make the municipality eligible for a grant I agree and yet a grant is recommended and I disagree The small items 1 and 2 in paragraphs 1 and 2 of the DC's letter of 28-7-48 may well be met from municipal funds being both together under 700 Rs Fountains (item no 3 in the DC's letter) are no necessaries and definitely luxuries to be indulged in if one can can afford them while it is true that fountains are possible even in impoverished and improvident local bodies if govt pays for them govt have to see that the limited grants they can make are utilised first for necessaries This item may therefore be cut out If govt are to pay even for ordinary road repairs (items nos 4 and 5) then this municipality does not deserve to exist and a grant for this purpose will lay govt open to exacting demands of a like nature from other municipalities all over the State The last item has been put in while the Shandy Maidan is proposed to be shifted If it is shifted the stalls would become useless The expenditure is peculiarly dubious

These fountains are not a part of the improvements included in the item? — BE

In the result on examination of the items of work, no grant is permissible or necessary The grant asked for is financially unacceptable I am unable to note on the financial condition of the municipality since its budget for 48-49 is not before me, though I find that the DC puts the closing balance for that year at Rs839/- and paragraph 5 of these notes gives the C B at over 10,000 Rs whichever of these two is correct, the grant is not possible If the C B is as low as Rs 389, the municipality ought not to shove its obligatory duties on the lean govt purse and indulge in fountains, if it is flush of cash to the extent of over 10,000 Rs it can spend what it likes, in reason, and ought not to come up for assistance There is also no means of knowing the position of the D C B of the Municipal funds and to judge if

Sir,

Re: Town Improvement works in Holenarsipur Town Municipality

I have the honour to state that the Town Municipal Council of Holenarsipur have proposed to undertake several Town Improvement works at a cost of Rs 15,000/- and they have resolved to request Government for a grant of Rs 7,500/- out of Town Improvement grants. The Municipal President has furnished a statement showing the names of works to be undertaken and the amounts estimated to cost Rs 21,127/- and has requested that at least a grant of Rs 15,000/- may be sanctioned. It is stated that the works are very necessary and urgent and that the Municipality is not able to contribute any more amount. The closing balance of the Municipality as per sanctioned budget for 47-48 is Rs 10,012/-

No grants have been sanctioned by Government to this Municipality for the last 3 or 4 years. I request that sanction of Government may kindly be obtained to a grant of at least Rs 5,000/- as a special case to enable the Municipality to execute at least some works.

A copy of the resolution of the Municipal Council and a statement showing the details of works proposed to be undertaken are enclosed.

I have the honour to be,
Sir,
your most obedient servant,

Deputy Commissioner,
Hassan District.

GOVERNMENT OF

Sir,

Re Town Improvement works in Holenarsipur Town Municipality

With reference to your letter No L 13834 dated 2-2-1948 calling for estimates prepared and scrutinised by the public works department in respect of Town Improvement works proposed to be taken up in Holenarsipur Town, I have the honour to forward herewith the estimates for R 11,925/- received from the Municipal President for favour of perusal The following are the works proposed to be taken up

		Estimated cost
1	Construction of platform in the vegetable market	R 240/-
2	Construction of stalls in the market	450/-
3	Providing fountain and necessary pipe lines for the improvement of the park	2,475/-
4	Metalling the river bank road	1,000/-
5	Metalling and improving the main road for 3 furlongs at R 1620/- per furlong	4,860/-
6	Construction of 2 stalls in the shandy maidan at R 1450/- per stall	2,900/-
	Total	R 11,925/-

The question of shifting the shandy maidan from the present place is under the consideration of the Municipal Council and the question of constructing stalls in the shandy maidan at a cost of R 2900/- may therefore be deferred Excluding this the remaining works cost R 9,025/- The work metalling and improving the roads will add to the beauty of the Town and afford convenience for traffic and as such it may be considered as Town Improvement work The drainage works which were included in the list previously furnished have been omitted since the drainage scheme has been sanctioned by Government separately

The anticipated income and expenditure of this Municipality for 48-49 is R 82,990/- and R 87,369/- respectively with a closing balance of R 839/- The Municipality is not in a position to provide for the entire cost of the proposed works without the aid from Government The budget for the year 48-49 has been submitted to Government for sanction with this office letter No C Per 147 6/47-8 dated 5-7-48 and the provision of R 5,000/- made under original works has been recommended to be deleted for want of funds Therefore the Municipality has to pay its contribution out of the provision of Rs 3,000/- made for repairs and compensation during the current year

I request that sanction of Government may kindly be obtained to the execution of the proposed works and for a grant of R 4,500/- equal to half of the estimated cost out of Town Improvement grants for the current year

The connected records are enclosed
